github.com/YasinDehfuli

linkedin.com/in/Yasin-Dehfuli

PROFILE

Front-end developer with over five years of professional experience building fast, accessible web applications with **Vue.js**, **Nuxt.js**, **NestJS** and **TypeScript**. At Saraf I work on the trader app, the saraf.app website, the support panel and campaign games.

I enjoy solving complex problems and working in teams that encourage growth, and I maintain open-source projects such as the Persian translation of Pro Git.

EDUCATION

2021 – 2022

BACHELOR'S DEGREE IN COMPUTER SCIENCE, FULL-STACK WEB DEVELOPMENT
Tehran Institute of Technology

2017 – 2019

ASSOCIATE'S DEGREE IN COMPUTER SOFTWARE
Imam Khomeini Technical College, Mazandaran

WORK EXPERIENCE

Front-end developer, Saraf

Apr 2026 – Present | Tehran, Iran

Saraf is an investment platform with its own bank card, where people buy and sell gold, US dollars and cryptocurrencies.

- Refactored the **trader application** into a **feature-based** structure, so each feature owns its components, state and logic.
- Rebuilt the **saraf.app** website from the ground up, migrating it from **Nuxt.js** to **NestJS** with server-rendered pages and Vue islands.
- Worked on the **support panel**, the **Vue 3** and **TypeScript** back office the team uses to look up customers, review identity verification and follow deposits, withdrawals and trades.
- Built the landing page and interactive game of the **13 Ethereum** campaign, and designed and built the game of the **Cube** campaign.

Front-end developer, Trend Agency

Apr 2024 – Apr 2026 | Tehran, Iran

Trend Agency is a digital marketing company that creates and manages large-scale advertising campaigns for major Iranian brands.

- Rebuilt the campaign management platform with **Vue 3**, **TypeScript** and **Vuetify 3**, replacing a legacy, unmaintainable system.
- Designed a modular, scalable architecture using the **Composition API**, **OOP** and reactive state management with **Pinia**.
- Developed a full **CRUD** system for campaigns, invoices and payments with real-time error handling and toast notifications.
- Implemented **role-based access control** and custom directives (v-td-tooltip, v-can, v-deny).
- Improved performance with **lazy loading**, **caching** and **optimized data fetching**.
- Worked with the UI/UX and back-end teams to connect design and logic.

Freelance and open-source developer

2022 – 2024 | Remote

- Built client websites, online stores and campaigns, and contributed to open-source projects with developer communities around the world.

SKILLS

- **Programming languages:** TypeScript, JavaScript
- **Core stack:** Vue.js (3.x), Nuxt.js, NestJS, Node.js
- **Also used:** Angular, React, Next.js, Laravel, Express
- **UI and libraries:** Vuetify, Ant Design, Tailwind CSS, Bootstrap, SCSS, shadcn/ui, Swiper
- **State and routing:** Pinia, Vuex, Vue Router, Context API
- **Architecture:** Component-based, Composition API, modular design, dependency injection, SOLID, SSR, islands
- **API and networking:** Axios, REST APIs, JWT auth, error handling
- **Tools:** Vite, Webpack, Git, GitHub, Docker, Linux, Vitest, Sentry
- **Optimization:** Lazy loading, caching, code splitting, performance tuning
- **Quality:** Type safety, ESLint, Prettier, Husky, clean code
- **Design:** Figma, responsive and mobile-first UI, RTL layouts, accessibility, localization, technical SEO
- **Soft skills:** Problem solving, learning, collaboration, adaptability

LANGUAGES

- Persian (native)
- English (professional working proficiency)
- German (basic reading and communication)

SELECTED PROJECTS

Saraf

NestJS, Vue.js, server-side rendering, islands architecture

Website of the Saraf investment platform, rebuilt from Nuxt.js to NestJS with server-rendered pages, Vue islands, live prices and a what-if returns calculator.

Gamepaign

Angular, TypeScript, server-side rendering, Express

Platform where brands turn campaigns into games: they build a wheel of fortune, a quiz or a prediction game in a panel, launch it and follow the results live.

Trend Panel

Vue.js, Vuetify, TypeScript, Pinia, Vite, Sentry

Trend Agency's operations panel for Instagram, Telegram and influencer campaigns, with publishers, media plans, reports, invoices and payouts.

Saraf World Cup

Nuxt.js, Vue.js, SCSS, Swiper

World Cup 2026 prediction campaign for Saraf, where users forecast matches, earn points and climb ranked groups to win a share of three bitcoins.

Pakshoma Dream Home

Vue.js, TypeScript, Pinia, Vue Router

Campaign for Pakshoma fridges: visitors answer five questions, see their dream home and get a discount code, and buying a fridge enters them in a draw for a home.

Shayan Swim

Next.js, React, TypeScript, Tailwind CSS, local SEO

Local-SEO website for swimming lessons in west Tehran, with three training programs, a learning path, an FAQ and the areas it serves.

Leily Wedding

Next.js, React, TypeScript, Tailwind CSS, Framer Motion

Website for a wedding planning, photography and videography studio, with its services, a gallery of captured moments and a four-step process.

Elahe Mirzaeii

Next.js, React, TypeScript, Tailwind CSS, Framer Motion, Lenis

Personal website of a brand manager and creative lead, with her career path, a case study of her work at Saraf and her campaign videos.

Moharek Charkhesh

Laravel, PHP, Bootstrap, SCSS

Online store for an industrial bearings supplier, with brand showcases, product categories and a Laravel back end.

All 17 projects, with screenshots of their pages: yasindehfuli.ir/#projects

OPEN SOURCE

Pro Git in Persian

Maintainer

Completed the Persian translation of the official Git book in 18 merged pull requests.

Get GitHub Achievements

Maintainer, 1.4K stars

Made 167 of its 344 commits and merged 40 pull requests from other contributors.

Vuetify

Contributor, 41K stars

Filled in its missing Persian translations, and reported an RTL letter-spacing bug that Vuetify fixed.

Web Package RTL

Top contributor, 663 stars

Made 84 of its 87 commits, adding right-to-left Bootstrap and Tailwind components.

xShop

Contributor, 506 stars

Reworked the storefront header and footer and the admin panel's tables.

Anubias

Contributor, 2.3K stars

Redesigned its README, adding screenshots of the app.

x-mega-menu

Contributor

Added new menu styles and rewrote the README with screenshots.

README.BOX

Maintainer

Made 46 of its 51 commits, adding profiles, previews and tools.

Vue DevTools

Issue reporter

Reported and explained a conflict between its Vite plugin and its browser extension.
